Dated: 29.10.2024

**CIRCULAR**  
**Export of Fruits & vegetables from India to Indonesia**

This is regarding the Indonesian Quarantine Authority Notification dated 4 July 2024 '**Draft Decree of the Chairman of the Indonesian Quarantine Authority concerning Quarantine Documents and Seals**' - introduction of prior notification provisions and export quarantine documents.

It is to inform that with effect from 1st October 2024, Indonesia has introduced prior notification provisions and export quarantine documents for importation of animal and animal products, fish and fish products, plant and plant products products. These documents must be sent by the Exporting Country to the Indonesian Quarantine Authority (IQA) prior to the departure of the said commodities to Indonesia. Two brochures and IQA presentations are enclosed for detailed information.

Prior notice is mandatory document in the country of origin regarding exportation of animal, fish, plants and their derivative products along with required documents to the Indonesian Quarantine Authority before commodity will be departed to Indonesia. The Indonesian Quarantine Authority has provided a web based application so that prior notice submission by the exporters in the commodity's country of origin can be done online. The prior notice will have positive impact on accelerating the cargo release of the commodities at ports reducing logistic cost that are incurred by their trading partners in Indonesia.

Exporters are advised to follow the above requirement and comply with the requirement for export of animal and animal products and plant and plant products to Indonesia.

# PRIOR NOTICE

What is it?

[karantinaindonesia.go.id](http://karantinaindonesia.go.id)

Prior Notice is a Mandatory document submitted by the exporter in the country of origin regarding the exportation of animals, fish, plants, and their derivative products along with required documents to the Indonesian Quarantine Authority before the commodity will be departed to Indonesia

## Who submits the Prior Notice?

Those who submit prior notice to the Indonesian Quarantine Authority are exporters in the country of origin who send commodities to Indonesia

# Importance of Prior Notice

## Early warning system for quarantine

### Preventive

to strengthen the system for preventing the entry and spread of quarantine pests and diseases of animals, fish and plants from abroad into the territory of the Republic of Indonesia;

### Monitoring and Control

to strengthen the monitoring and control system to fulfill the requirements for gmo products, genetic resources, biological agents, invasive alien species, and wild and rare plants and animals.

### Risk Analysis

to simplify the risk analysis process and the preparation process for implementing quarantine measures so that the quarantine clearance process becomes faster

## Benefit for Exporters

Prior Notice has a positive impact on accelerating the cargo release of animal, fish, plant commodities and their derivative products at ports so it will reduce logistics costs that must be incurred by their trading partners in Indonesia

## Submit

The Indonesian Quarantine Authority has provided a web-based application so that prior notice submission by exporters in the commodity's country of origin can be done online. This web-based application has been designed so that users can submit their prior notices quickly and easily

<http://notice.karantinaindonesia.go.id>

**Indonesian Quarantine Authority will now implement paperless documents. If necessary, the recipient can print the document themselves**

1. Save time, money, and resources
2. Reduce waste or enviromental friendly
3. Improved customer experience
4. Work faster
5. Secure and compliant
6. Easier file sharing & collaboration

1. Go to <https://ptk.karantinaindonesia.go.id/check-cert>
2. Enter certificate number and serial number, then click Validate
3. If the document is not found, then the document is not valid

# QUARANTINE EXPORT DOCUMENTS

## DEFINITION:

Quarantine export documents are documents issued by the Indonesian Quarantine Authority (IQA) stating that quarantine measures have been taken for animals, fish, and plants and their derivative products that are exported to destination country

## TYPE OF DOCUMENTS:

**Health Certificate for Fish and Fish Products (KI-1):** document certifies the health of the carrier media, especially fish and fish products, which will be exported to destination country;

**Animal Health Certificate (KH-1):** document certifies the health of the carrier media, especially animals which will be sent from one area to another area within the territory of Indonesia, and those that will be exported to destination country;

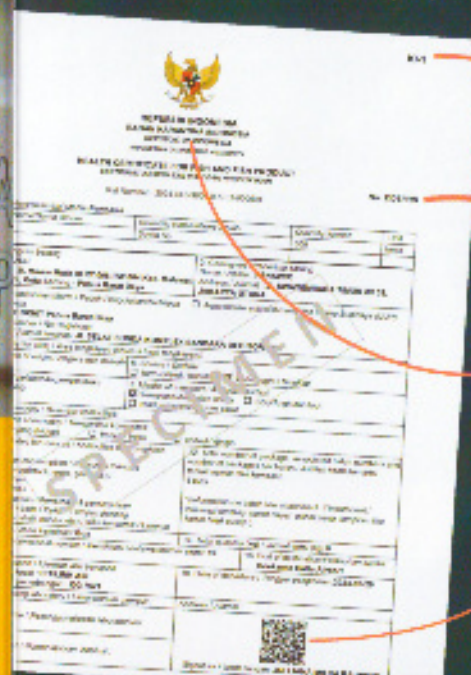

**Phytosanitary Certificate (KT-1):** document certifies the health of the carrier media, especially plant and plant products, which will be sent from one area to another within the territory of Indonesia, and those that will be exported to destination country;

**Sanitary Certificate of Animal Products (KH-2):** document certifies the health of the carrier media, especially animal products that will be sent from one area to another area within the territory of Indonesia, and those that will be exported to destination country;

**Certification for Export of Processed Product/Non-Regulated Article (KT-4):** document certifies the health of processed carrier media, including information regarding the quarantine measures that have been conducted for the said processed carrier media. This document will be sent by the exporting countries to the importing country, if the National Plant Protection Office (NPPO) of the Importing country requires it.

**Phytosanitary Certificate for re-export (KT-2):** document certifies the carrier media that enter the territory of Indonesia, including information regarding quarantine measures that have been conducted for the said carrier media;
