1. INTRODUCTION

The Tobacco Board, flagship under the ministry of commerce and industry has decided to implement a country-wide portal to ease and facilitate procedures for traders associated with the Board. The software application will act as an end-to-end system wherein traders can handle their all activities entirely on-line starting from Registration, Renewals, Filling of Returns, ***RCMC Certificate registration*** and GSP certificate. The end-to-end portal has the following key modules:

- Traders' Registration
- Traders' Returns
- **RCMC Certificate**
- GSP Certificate

TRADERS RCMC MODULE – OVERVIEW

Before you begin:

In the software application, traders will be identified with a unique ID. The traders will be required to register in the trader registration module as a pre-requisite for participation in the RCMC Certification registration of the application.

Only the traders having active registration with the tobacco board can participate in RCMC Certification and have authorized entry into the portal. Given the sensitivities, traders will be allowed to register in the portal only after their identity and the veracity of their claims have been verified.

Once registration is approved for the trader and the registration status is **“Registered”** the trader can file online returns under that particular category. Trader has to ensure that his registration with Tobacco Board is approved before applying for RCMC Certificate which otherwise can also be tracked by him through the application.

2. PRE-REQUISITES

The Trader must have the following:

- 2.1. A **broadband Internet connection**, it is suggested to have minimum 512kbps line. This is required for ensuring faster response while accessing information, processing and uploading of files. Some of the common broadband service (and other High-speed Internet service) providers are BSNL, Airtel, Sify, Reliance and Tata VSNL and more
- 2.2. You need to go to **PORTAL** using the URL <http://www.tobaccoboard.in> to enter the Information Page as indicated in the following screen shot.

Figure 1

- 2.3. In the software application, traders will be identified with a unique ID. The traders will be required to register in the trader registration module to obtain their unique Id, which is a pre-requisite for participation in the portal activities.
- 2.4. The portal is compatible with all browsers, however **Mozilla Firefox** is preferred.
- 2.5. A valid e-mail account with enough space to receive mails. If you are a regular trader to the Tobacco Board we recommend a dedicated email account and an alternate e-mail account in case the preferred e-mail service has some problem of receiving and sending mails. There are many free mail services available on the internet today like Hotmail,

gmail, Yahoo mail, Rediffmail, Sify mail etc. There are many paid services available if you prefer. Following are the links to some of these e-mail service providers.

Gmail	:	http://www.gmail.com
Hotmail	:	http://www.hotmail.com
SIFY	:	http://www.sify.com
Rediff	:	http://www.rediffmail.com
Yahoo	:	http://www.yahoo.com (or) http://www.yahoo.co.in
